

SANITIZATION RESPONSE SERVICES

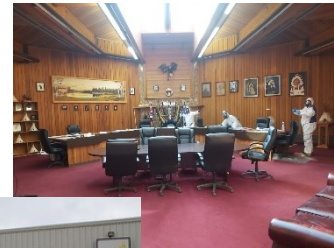

Attention:

The Young Group of Companies is an Industrial Cleaning, Safety and Environmental services provider based in Calgary, Edmonton and Fort McMurray. We offer key specialized services and have frequently performed under extreme adverse conditions. With our recent procedural changes to accommodate working through the Covid-19 pandemic, we have come up with many areas where we could help not just our traditional customers but Government, Cities and Municipalities. These processes allow us to maintain a strict social distancing program and utilise confined space processes and techniques to ensure personnel safety.

We have fleets of Industrial grade equipment that allow us to clean, sanitize and disinfect large or small areas under stringent safety provisions. Through the use of fogging processes in addition to manual services, we are further able to mitigate human risk. To further support our sanitization services, we have fleets of safety, cleaning and breathing air equipment on standby.

Areas that we feel we could assist include, but not limited to:

- Parks (trash bins, picnic tables)
- Children's Play Parks (steam cleaned, and chemically sanitized)
- Elevators
- Multipurpose buildings
- Stadiums (main areas, seating etc.)
- Public doorways, foyers, heavy traffic areas
- Parkades
- Vehicles and equipment
- Offices
- Lunchrooms
- Meeting spaces
- Transit stations
- Buses, LRTs
- Light Standards (buttons)
- Industrial, and commercial facilities
- Grocery Carts

In addition, we have a large inventory of safety equipment, mobile wash stations and breathing air equipment available as well as emergency resources on standby.

We have the ability to mobilize crews 24/7 and have our equipment prepared for immediate dispatch.

If you have any questions, at any time, please do not hesitate to contact Todd Stephens at 403-991-8633.
